

Cindy Chinn

Artist, Painter, Muralist, creator

The Mural Process

It all starts with an idea. Cindy works with you to create a design that you will love and can work within the allotted budget. From there, Cindy will provide a final concept image for you to sign off with.

The next step is to decide if the mural should be painted directly on the wall or on canvas and applied to the wall (like wallpaper, but stronger). The advantages of painting on canvas are that the mural can be shipped, moved with your furniture, and save on travel costs.

Once the project is started, Cindy will provide a web page which offers daily updates. You'll be able to see your piece come to life.

Pricing

We can price your mural two ways, by the project or by the square foot. A large (~6'x6') mural will take about 7 days to paint. A larger mural should be priced by the project so that you can adhere to a strict budget. Pricing can also be calculated on a square-foot basis @ \$100 per Square Foot.

Travel costs such as airfare (from Omaha, NE) and accommodations are extra if required. Additionally, a \$200 travel fee is charged.

If your mural is painted on canvas, fees will apply to the material and shipping.

About the Murals

Cindy is known for her vibrant colors. This comes from using only the best professional artist's acrylic paint. If you view the gallery, you will see the detail contained in each mural. If the mural is painted on canvas - Cindy will select from a number of fine canvases to choose the best one for the job.

Working with Cindy

Most clients love the personal touch that Cindy brings to each project. She loves what she does and it shows. You'll find Cindy is very accommodating to meet your needs for hours worked, security on site and professionalism.
