

WEBSITE DESIGN AND HOSTING

Logo Design: \$150

Starting with a great logo is the key to our design process. If you have an existing logo, we'll incorporate it into the website design, or we'll develop a new logo with you. We will provide several options and work with you to create a logo that you feel best represents your company or organization.

Here are some previous designs we have done:

Website Design

We have been designing websites since 1996. We will provide you with a site that you and your customers will love. We make sure that it is great to look at and easy to navigate. We'll select the best platform for your needs and build the site from the logo on out. We can work with HTML, Wordpress, Joomla and other backends to build a great site for you. Here are some examples of our work:

ThayerCounty.org (Joomla) • ThayerCountyMuseum.com (Wordpress) • HebronDentalCare.com
SavingTheMajestic.com • SpringCreekVetClinic.com • ArtWhitton.com (Wordpress)

Basic HTML site

A great choice for a simple website with few updates.

\$200 and up

Wordpress Site

Perfect for blogs and site with constant updates that the owner can update

\$400 and up

Joomla Site

Used for large companies with a lot of data that needs to be easily found.

\$700 and up

Hosting Plans

We don't charge extra fees for website hosting (where the files are stored) or domain name registration (your 'dot com'). Domain names cost us about \$9 a year and website hosting through a national company starts at \$4.95 a month. Costing you about \$60 per year (subject to change). If you have a small site and don't plan to maintain it yourself, we can host your site for free on our server and your only charge will be for the Domain Registration.
